

Portfolio or Agency mission/charter

EMA provides national leadership in the development of measures to reduce risk to communities and manage the consequences of disasters.

Key objective/s with respect to space-related activity

No objectives directly related to space-related activity. However, the role of the Australian Government Space Forum links directly to EMA’s strategy of building more effective partnerships, and EMA’s role in EM / CT-related GIS indicates space-based data and its surrounding issues are becoming increasingly significant in EMA’s activities.

Current space related activities/responsibilities

- Australian Contingency Plan for Space Re-entry Debris (AUSCONPLAN SPRED)

Portfolio/Agency budgets and expenditure on space related activity

- Nil in relation to space

Legislation administered by portfolio/agency

- None

International space-related agreements

- None

Portfolio/Agency involvement in other space-related agreements

- None
